Independent Auditors' Report

To the Board of Directors Columbus House, Inc. and Subsidiary New Haven, Connecticut

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Columbus House, Inc. and Subsidiary (collectively, the Organization), which comprise the consolidated statements of financial position as of June 30, 2017 and 2016, and the related consolidated statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Organization as of June 30, 2017 and 2016, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated October 30, 2017 on our consideration of the Organization's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control over financial reporting and compliance.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION

Columbus House, Inc. (Columbus House), a Connecticut nonstock corporation, opened its doors in 1982 to provide emergency shelter to men and women over the age of 18 who were experiencing homelessness. Since that time, the agency has expanded its mission and programs dramatically, providing not only shelter but housing and a full array of services designed to help people move out of homelessness toward housing, recovery and independence. These services are funded by grants and contributions from government entities, individuals, foundations and religious organizations.

CH Supportive Housing-1, LLC, a single-member limited liability company owned by Columbus House, Inc., was organized in 2012 for the purpose of developing and managing housing for people experiencing homelessness in Connecticut. Columbus House and CH Supportive Housing-1, LLC, are collectively referred to as the Organization.

Effective July 29, 2016, the Organization acquired the Wallingford Emergency Shelter, Inc. (WES), a nonprofit corporation located in Wallingford, Connecticut, which specializes in providing assistance to the homeless. Assets transferred include all real property and any cash remaining after WES satisfied all creditors. The Organization has not assumed any liabilities of WES. As a result of the acquisition, the Organization has recorded cash and cash equivalents of \$19,950 and the fair value of property, buildings and equipment acquired of \$568,908 on the consolidated statements of financial position, and a gain on the acquisition of \$588,858 on the consolidated statements of activities.

Programs and Services

Shelter and Services

Columbus House provides emergency shelter and case management services in New Haven, Wallingford and Middletown. In New Haven, intensive case management support is provided to 17 men in recovery at Recovery House, while at the main shelter, 81 beds provide emergency shelter to single adults. During winter months, a seasonal shelter is provided to 75 men. In addition, in collaboration with congregations in the faith community, shelter is provided for 12 people in social halls of these congregations for 5 months during the peak winter season.

Also in New Haven, the Organization operates a Medical Respite program for people leaving Yale New Haven Hospital or the VA Hospital, who are in need of recuperative care. Once in the Respite program, patients receive ongoing medical care from visiting nurses until they are medically cleared by a physician. While in the Respite program, the patients receive intensive services that help them make and keep follow up health care visits and work towards getting appropriate housing.

In Wallingford, a seasonal shelter offers 15 beds to men and women, during the winter months. Year-round shelter is provided to four families. In Middletown, families experiencing homelessness are offered shelter in the seven available units.

Columbus House provides close to 200 emergency shelter beds. All shelter clients receive case management to support them in finding permanent housing.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Housing Services

Columbus House provided housing and services to over 400 individuals and families in 2017 through either permanent supportive housing or rapid rehousing supports. Permanent supportive housing is for people who have been homeless for a year or more and live with a disability, most often with mental illness. The client has a lease with the landlord and pays 30% of his/her income towards rent, which is subsidized by federal or state funds managed through Columbus House. Supportive case management services help clients stay housed by tending to the lease agreement and helping them integrate into the community.

Columbus House is also a housing developer. Completed in 2015, Val Macri is the first development the Organization owns and manages. This small complex has 17 recently renovated units, housing both very low income single adults and chronically homeless people. The Organization is currently the preferred developer on a similar project in Middletown, where a single site will be renovated to house 32 adults, both very low income and chronically homeless.

Rapid rehousing is for people in the shelter who can move out quickly with short-term financial support. Columbus House has been awarded Rapid Rehousing funds for individuals and families, in both Middletown and New Haven. Clients may receive a short-term subsidy that helps them move from homelessness to appropriate housing in the community.

Support Services

In every program, Columbus House provides support services through professional and paraprofessional staff. Case management services assist clients with getting housed and taking care of basic needs such as obtaining an ID, furniture or bus passes. The Organization's employment specialists work with clients on employment readiness skills and connect with employers, opening doors to new opportunities for the clients. Benefits specialists ensure that clients are enrolled in health insurance, Social Security benefits, food stamps and other entitlement programs. A Rep Payee program helps clients manage their money so that they can maintain housing by paying their rent and bills on time and fully.

Veteran specific services include Harkness House and the Support Services for Veteran Families program. Harkness House provides bridge housing for veterans along with case management services. Support Services for Veteran Families provides case management, employment, housing and benefits specialists for veterans who are homeless and for those who are at risk of becoming homeless. Through these and other programs, Columbus House serves close to 400 veterans annually.

Outreach Programs

In many communities across Connecticut, there are people who are homeless who are living on the streets, in encampments and in abandoned buildings. Columbus House staff provide street outreach in New Haven and Middletown to work with people who do not or cannot come into the shelters in those communities. The goal is to help move people into housing by providing regular engagement and, ultimately, case management services. The Organization also provides a transportation program that offers free rides for people who are homeless and in need of getting to and from medical or treatment related appointments, anywhere in the state.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Presentation

The financial statements are presented on a consolidated basis to include the transactions of Columbus House, Inc., and its subsidiary, CH Supportive Housing-1, LLC. All material intercompany balances and transactions have been eliminated in the consolidated financial statements. The consolidated financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America. Accordingly, the accounts of the Organization are reported in the following net asset categories:

Unrestricted Net Assets

Unrestricted net assets represent available resources other than donor-restricted contributions. These resources may be expended at the discretion of the Board of Directors. The Board of Directors has designated net assets of \$303,010 for operational reserves at June 30, 2017 and 2016.

Temporarily Restricted Net Assets

Temporarily restricted net assets represent contributions that are restricted by the donor either as to purpose or time.

Permanently Restricted Net Assets

Permanently restricted net assets represent resources that have donor-imposed restrictions to be maintained in perpetuity. The Organization's permanently restricted net assets consist of the land value of a property restricted in perpetuity for the benefit of low-income persons.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include cash in banks and certain highly liquid investments with original maturities of 90 days or less. The Organization maintains its cash and cash equivalents in financial institutions that may, at times, exceed federal depository insurance limits. Management believes that the Organization's deposits are not subject to significant credit risk.

Investment Valuation and Income Recognition

Investments in mutual funds are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in certificates of deposit are reported at cost. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Realized and unrealized gains include the Organization's gains and losses on investments bought and sold as well as held during the year.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Grants, Contracts and Other Receivables, Net

Grants from federal, state and other sources are recognized as revenue when the related expenditures are incurred or revenue is otherwise earned. The Organization has also entered into contract fee-for-service agreements with several governmental agencies. Additionally, the Organization enters into service agreements with clients in certain of its housing programs. Grants receivable represents unreimbursed expenses, and contracts and other receivables represents contract fee receivables at June 30, 2017 and 2016.

Management performs a periodic review of client receivables arising out of such agreements and specific accounts are written off after normal collection efforts have been exhausted. Management has determined that an allowance for doubtful accounts is not necessary as of June 30, 2017 and 2016.

Other Assets

Other assets consist of security deposits on rental properties and prepaid expenses.

Property, Buildings and Equipment

Property and equipment acquisitions and improvements thereon that exceed \$1,000 are capitalized at cost and depreciated on a straight-line basis over their estimated useful lives. Repairs and maintenance are charged to expense as incurred.

Governmental Grants

Governmental grant revenue is recognized to the extent that allowable expenditures have been incurred. Grant receipts in excess of expenditures are recognized as refundable advances.

Contributions

Unconditional contributions are recognized when pledged or received, as applicable, and are considered to be available for unrestricted use unless specifically restricted by the donor. Contributions receivable expected to be collected in more than one year are discounted to their present value. The Organization and its affiliates report nongovernmental contributions and grants of cash and other assets as temporarily restricted support if they are received with donor stipulations that limit their use. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of activities as net assets released from restrictions. Contributions received whose restrictions are met in the same period are presented with unrestricted net assets. Conditional promises to give are recognized when the conditions on which they depend are substantially met.

Donated Property and Services

Donated services are recognized as contributions if the services create or enhance nonfinancial assets or require specialized skills, are performed by people with those skills and would otherwise be purchased by the Organization.

Donated property and the use of equipment and facilities are recorded as contributions and expensed at fair market value when determinable, otherwise at values indicated by the donor.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

While many individuals volunteer their time and perform a variety of tasks that assist the Organization, most amounts have not been recognized in the accompanying consolidated financial statements for such services because the criteria for recognition of such volunteer efforts have not been met.

Functional Expense Allocation

Expenses are charged directly to program services, development and fundraising, and management and general based on specific identification to the extent practicable. Expenses related to more than one function have been allocated based on periodic time and expense studies. Management and general expenses include those expenses that are not directly identifiable with a specific function, but provide for the overall support and direction of the Organization.

Income Taxes

Columbus House is exempt from federal and state income taxes as a public charity under Section 501(c)(3) of the Internal Revenue Code (the Code). CH Supportive Housing-1, LLC, is wholly owned by Columbus House and is treated as a disregarded entity pursuant to Treasury Regulation Section 301.7701-3 for federal income tax purposes. Generally, disregarded entities are not subject to entity-level federal or state income taxation and, as such, the Organization is not required to provide for income taxes. All activity of CH Supportive Housing-1, LLC, is included in the Columbus House Form 990.

Subsequent Events

In preparing these consolidated financial statements, management has evaluated subsequent events through October 30, 2017, which represents the date the consolidated financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Organization has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for financial instruments measured at fair value:

Mutual Funds

Mutual funds are valued at the quoted net asset value of shares reported in the active market in which the mutual funds are traded.

There have been no changes in the methodology used at June 30, 2017 and 2016.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Organization believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Organization's investments at fair value as of June 30, 2017 and 2016:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 6 - CONCENTRATIONS

The Organization receives a significant portion of its total support from federal and state grants and contracts. As with all government funding, these grants and contracts are subject to reduction or termination in future years. Any significant reduction in these grants and contracts could have an adverse effect on the Organization's program services. Based on historical experience, management believes grants receivable represent negligible credit risk.

NOTE 7 - LINE OF CREDIT

The Organization has an available line of credit of \$1,000,000 that expires on March 31, 2018. The line bears interest at 3% above the LIBOR Advantage Rate and is secured by substantially all of the Organization's assets. There was no outstanding balance under this line of credit as of June 30, 2017 and 2016.
